

## FAASTeam CFI-DPE Open Forum

Becoming a safe, competent pilot requires proficiency in a myriad of physical and mental abilities. Regardless of a pilot's certification level, constant practice and refinement are needed to maintain those hard earned skills. In this country, Loss of Control In-Flight remains a significant cause of fatal accidents. At this open forum, we will discuss preventing Loss of Control in Airplanes! Don't miss this opportunity to discuss the methods, techniques, and challenges involved in guiding a pilot through this training. CFIs, DPEs and Instructors in training are welcome and encouraged to attend. Click the link below and register TODAY. Refreshments provided by Premiere Flight Center.

**Directions:** The hangar is located at the Northeast corner of the airport property. FAASTeam Forum held in the upstairs classroom.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
